W. TOOKE, C. P. R. agent at Calgary, who is making a tour of inspection of the new settlements in the Edmonton district was in town on Saturday. He has visited Beaver lake, Edna and Agricola settlements and finds the settlers generally making good headway and well satisfied. The Parry Sound colony at Agricola showed substantial progress over last year in the amount of their improvements and in the increase of their cattle. The German settlement of Josephburg also was doing very well. Mr. Tooke was very much struck with the Sturgeon coal mine on Egg lake creek which is being operated by Frank Smith. The seam is six feet thick and the quality of the coal extra good. It is mined ready for loading at 75c. a ton. There is a good demand for the coal in the surrounding settlements of Sturgeon river and St. Albert, where the farmers use it for fuel, as being cheaper and better than wood. An extension of the C. & E. to that coal mine would bring the price of fuel to bed rock along the line. Mr. Tooke visits the German settlements on Stony Plain to-day.

COURT closed at 2 o'clock to-day. The price of eggs has risen to 25c. They are getting scarce.

MR. WILSON returned from the Indian treaty payments in the Saddle lake agency on Thursday.

JOHN LINEHAM, M. L. A., for High river, arrived on Thursday's train to purchase cattle. Mr. Lineham is well satisfied with the purchases which he made during the summer and still holds faith in cattle, as a source of profit.

E. M. HUBBELL, D. L. S., is surveying the Hay lakes trail through the Beaver hills from South Edmonton to Hay lakes. He has had quite an interesting time with a number of the Russian German settlers who objected to the trail across their farms.

THE cold weather of the early part of the week seems to have quenched the prairie fires, although smoke was seen to the south on Friday. It is not likely, however, that the weather will be mild enough to let them get much headway from this time forward.

THE difference in price between cattle suitable for export and those only suitable for local market even where the local market is good as shown by a recent Toronto market report. Export cattle were \$3.2c. to 4c. while butchers' cattle were only worth 2.5c. to 3.2c.

A MEETING of the directors of the Creamery Company was held on Saturday afternoon in Thos. Bellamy's office, for the purpose of settling up the business for the season. A committee consisting of Messrs. Kennedy, Bellamy and Richardson will take stock at the creamery to-morrow.

THE Toronto Week publishes as a supplement to its number of October 25th, a pamphlet entitled "Canada and her relations to the Empire," by Lieut.-Col. Denison, of Toronto. The pamphlet sets out as strongly as possible the antagonism of the United States against Canada as a part of the Empire.

AT the Penny Readings entertainments on Friday first, Mr. A. G. Randall's pupils will give a production of "Robinson Crusoe." Mr. Randall has had this work on hand for some time. His well known ability in choir training ensures a first class entertainment. The singing is to be followed by lime light views.

A LETTER from Alex. Wilson who went to Rossland, B. C., last spring, received by John Kelly, of the City Carriage Works, states that he has made a good sale of a one-sixth interest which he had in mine there. The mine sold for \$26,000. Mr. Wilson has gone to Idaho for the winter where he has other mining interests.

JOS. LAFOND, of Beaver lake, had an excellent sample of peas in town last week. He raised 45 bushels last summer. The peas were perfectly ripe, round and hard. They are an Eastern Canadian variety, and very early. Mr. Lafond has grown them for two years at Beaver lake with perfect success, having started with a cupful which he brought with him from the States.

THE funeral of the late C. H. Connon took place on Friday afternoon at 2 p. m. from the residence of Mrs. Gauvreau to All Saints church where service was held by Rev. A. Stanzen. From the church the funeral party proceeded to the Edmonton cemetery. Deceased had been a sergeant in the mounted police at one time and the pall bearers were ex-sergeants. They were Dr. Braithwaite, Messrs. Graydon, Purches, Cooper, Grogan, and Garnham. The attendance was large considering the very short notice.

TORONTO World, October 22: Mr. W. T. Jennings returned on Saturday from a visit to Manitoba and the Northwest. He is greatly pleased with the progress and development of agricultural pursuits there. A number of creameries have been established between Calgary and Edmonton, and the breeding of cattle is improving yearly. Mr. Jennings attended the fall fair at Edmonton, and brought home a number of fine samples of grain, including wheat, barley, oats and peas, which were greatly admired yesterday by grain dealers on change.

The quantity marketed has not been large and the tendency of prices has been downward. In Ontario oats are 20c. and 22c. Barley is 20c. to 22c. for feed and 23c. for malting.

#### THE RIVALS !

The announcement is made that Sir Donald Smith has been re-elected a director of the Great Northern Railway Company. Sir Donald is well known as the founder and moving spirit of what is now the Great Northern Railway. He was a director of the company for a long time, as were also Sir George Stephen and R. B. Angus, his colleagues on the C. P. R. His re-election to the directorate is evidence that he either controls or represents an important part of the stock of the company, and puts him in a position to take a definite and important part in its management towards the earning of its profits. It is of course a matter of public knowledge that Sir Donald is the founder and controlling spirit of the C. P. R. Under ordinary circumstances there is nothing unusual or improper in one person of great wealth holding shares and actively interesting himself in two or more railways, as Sir Donald has done and is doing in these two great roads. It is evident however that if one man has secured by any means a controlling influence in two ostensibly rival enterprises, they are no longer rivals, but play into each others hands. Inasmuch as Sir Donald founded both roads, and has unquestionably controlled the C. P. R. since it was built, while exercising an important if not a predominant influence in the Great Northern, it is plain that he has been in a position to play the interests of the C. P. R. into the hands of the Great Northern, even if he has not been able to play that road into the hands of the C. P. R. That the two roads have worked together almost as one institution throughout the greater part of their career is a matter of public knowledge. It is not that feature of the case, however, which at present claims attention. The C. P. R. was paid for by the people of Canada, not merely to be an accessory but to be a promoter of settlement and civilization throughout the Great Northwest. In order that this might be the more thoroughly ensured the C. P. R. was given an immense area of land to be picked and chosen as they pleased, so that they should have the greatest possible interest in that development of the country which the road was built to secure. And yet it has been patent to every one in the Northwest that the development and settlement of the Territories, the promotion of the trade of the Territories, was the last thing to claim the attention of the C. P. R. If it was the matter of the extension of lines, or the inducing of immigration, the country which had already bled so freely must bleed again to help to settle the railroad company's own lands, when the very idea of granting the lands was that the efforts of the railroad company to settle them would settle the whole country without additional expense to the government. In the matter of the adjustment of rates the only consideration of the company has been how much the traffic will bear; there has been no consideration of how the reduction of this or that rate would affect the settlement of the country. This is certainly a strange condition of affairs, and yet it is the condition as it exists, and it can be accounted for in this way. The same men who control the C. P. R. also control the Great Northern. The territory of the C. P. R. is protected from competition by the position taken by the government of Canada, while the territory of the Great Northern is open to competition. Therefore while every energy was strained to extend lines and promote settlement in the territory of the Great Northern, the territory of the C. P. R. has lain dormant, locked up as a preserve, to be dealt with when the time should come; and the C. P. R. instead of being used for the purpose for which it was primarily intended,

namely, the development of these Territories, has been practically a United States road running through Canadian territory and competing for United States freight. These are plain facts. There is no denying them or getting around them. The road that was paid for by the people of Canada to secure the development of the Northwest has paid ten times the attention to securing United States patronage that it has to assisting the development of the Northwest; while its twin south of the line has been using every endeavor, with most successful results, to settle up the country along its lines. It is time that the people of Canada, and especially of the Northwest, woke up to what is hurting them; and that instead of protecting the C. P. R. from competition and exempting it from control, as has been the policy of the country ever since 1880, competition should be encouraged and proper control exercised. This Canadian road should be run for the benefit of Canada, rather than of the United States; instead of all Canada being run for the benefit of the railroad—as it is.

#### THE HUDSON'S BAY AND PACIFIC RAILWAY.

Notice is hereby given in the Canada Gazette, Oct. 25th, that application will be made to the parliament of Canada, at the next session thereof, for an act to incorporate a company to construct, operate and maintain a railway to be operated by steam and electricity from Port Churchill, on Hudson's Bay, through the Territory of Keewatin, south of Churchill river and north of Nelson river, to a point at or near Sea Falls on said river; thence north of Lake Winnipeg through the Territory of Saskatchewan to Prince Albert, in said Territory; thence continuing through said Territory and the Territory of Alberta, in a direct line to Calgary, in said last mentioned Territory, with power to construct a branch line from a point near Manitoba lake, in the Territory of Saskatchewan, to Edmonton, in the Territory of Alberta, also with power to build, purchase, charter, maintain and navigate steam and other vessels to ply between Port Churchill and other countries to carry and convey passengers and freight, and carry on general transportation service in connection with said railway.

#### EDMONTON DISTRICT RAILWAY

The Canada Gazette of October 26th, contains the following notice.

Notice is hereby given that application will be made at the next session of the parliament of Canada, for an act to incorporate the Edmonton district railway company, with power to construct, operate and maintain railroads from the town of Edmonton, in the district of Alberta, Northwest Territories, Canada:—(a.) Southerly to connect with the Calgary and Edmonton railway; (b.) Northwesterly to a point on the Athabasca river, at or near Fort Assiniboia, with a branch to Stony Plains; (c.) Easterly to or near Fort Saskatchewan, with a branch to Sturgeon river. Also to acquire and operate ferries across and steamers and other craft upon the Saskatchewan, Pembin and Athabasca rivers and water contiguous thereto; to acquire and operate coal mines, stone quarries, oil wells, gold and other mines, and to generate and sell or lease electric energy for power, light or heat; and to acquire or construct and operate water-power and irrigation works, all within the district of Alberta, with all the proper or usual powers given or granted to companies incorporated for any of the purposes aforesaid.

A. R. CEELEMAN,  
Solicitor for applicants.  
Dated at Toronto, this 22nd day of October, 1895.

#### GENERAL NEWS.

The Winnipeg and Great Northern railway company is applying for an extension of time for the completion of the railway.

James Duncan, of Dominion City, Manitoba, recently marketed 500 pounds of home produced honey in Emerson. Sixty-five hives of bees produced 2,800 pounds of honey, an increase of 800 pounds over last year.

The Montreal Trade Bulletin mentions that several lots of last year's butter have been sold in Montreal at 15c. to 16c. The butter had been kept over season in refrigerators. Had it been kept in the ordinary way it would not have been fit for anything but grease.

The Northern Pacific railroad company has issued a new freight tariff from Pacific coast points to Kootenay, British Columbia, which goes into effect at once. It makes reductions to Robson, Nakusp, Trail and Waneta, but the principal feature of it is that it puts Victoria on an equal footing with Vancouver and Tacoma. Formerly the rates from Tacoma and Vancouver were ten cents per hundred weight less than from Victoria.

According to a press report, a shipment of apples was made recently from Grimsby, Ont., to Sydney, Australia. The board of control of the Ontario Fruit Experiment stations, through the secretary, is making this experiment in the hope that it may be the means of opening up a good market for Ontario apples in Australia. Australia produces apples abundantly, but their crop comes in during our winter season, and at this season of the year they are out of apples.

The Montreal Trade Bulletin reports a boom in butter in England and that the make of the Eastern Canada creameries for the season has nearly all gone forward. Also that buyers are now looking around for dairy butter. Butter has advanced 2c. a pound in Montreal within two weeks. October creamery is quoted at 22c. to 23c. The reason of the demand lies in the reported failure of the expected Australian supply owing to drought in Australia and New Zealand.

Threshing is nearly over in this district and while some report good grain and a big yield others speak of the grain being damaged a good deal by frost and consequently a light crop.

The new Methodist church is receiving the second coat of plaster and will be ready to be occupied in a few weeks.

Rev. Mr. Taylor narrowly escaped being seriously injured last Tuesday by his horse starting suddenly as he was getting in the rig. The animal got away and running over a bank at the side of the road, overturned the conveyance and Mr. Taylor received several severe bruises, the effects of which he will feel for some time.

T. T. Brown lost a heavy brood mare last Tuesday.

It was reported last Monday that Robert Kelly had taken to himself his other and better half, consequently when night came on the boys turned out from far and near, and armed with anything and everything capable of producing a sound, they marched in the direction of Kelly's hill. But as some had doubts as to the correctness of the report they concluded—on arriving at the coulee—to hold a camp meeting while two of their number went forward to investigate, so they built a rousing fire and proceeded to make themselves comfortable till the scouts returned with the report that Bob was quietly smoking his pipe in company with another man and no Mrs. Kelly could be found, consequently they dispersed for home without so much as giving the "opening salute," and now Bob has the laugh on the boys.

Nov. 1st, 1895.

Ontario farmers are getting \$1.00 per barrel for green apples and \$1.25 for red varieties, per barrel. Fancy varieties bring \$1.50 in the orchards. Round lots have sold at \$1.75 to \$2.25, f. o. b. cars.

The illustrated supplement with the Saturday Globe last week was a good one. Nearly eight pages of the supplement are devoted to the harvest in Manitoba and the Canadian Territories. The letterpress is by managing Editor Willison, who spent several weeks in the west during harvest time.

The Brampton, Ont., Conservator, published in the adjoining constituency to that of Cardwell, has an able article on the degradation of Canadian politics by the abundance of place hunting politicians, in the course of which it makes the following remarks: "The experience in Cardwell is familiar to all. R. S. White was twice forced upon the conservative convention contrary to the wishes of many of the most responsible men of the party. Now he resigns either to accept, or because he cannot secure, the collectorship of customs at Montreal. A great deal is said about his claim to the position, and about the services he has rendered to the party. That Mr. White is possessed of ability, all who know him testify. That his father rendered good service to the country friend and foe are pleased to acknowledge. But there are no hereditary legislators in Canada. R. S. White stands upon his own feet or not at all. The Montreal Gazette supports the conservative party, and has received thousands of dollars in Government patronage. On what then does Mr. White base his claim? There are thousands of men who have rendered greater service, and who look for nothing in return."

#### EPWORTH LEAGUE CONCERT.

An entertainment was given by the Epworth League in the Methodist church on Friday evening last, in aid of the league purposes. The first part of the entertainment was an art exhibit in the vestry of the church which attracted a great deal of attention. The concert opened at 8.30, and had a good attendance. S. S. Taylor was chairman. The following programme was rendered: Solo, "Come unto me," Miss Rogers. Recitation, "What the Grandmothers say," Clara Oliver. Guitar solo, Miss McLeod. Reading, "The Champion," Mr. Mathers. Song, "Good-bye Mavourneen," Mr. Graymer. Reading, "By Moonlight Waters," Miss Taylor. Song, Miss Cookson. Duet, "My own Canadian home," Nita and Blodding Doran; encore, "Quack, Quack." Quartette, "Lay of the Jolly Blacksmith," Messrs. Hill, Rayner, Graham and Goodwin. The proceedings were closed by singing the doxology.

#### MARKETS.

Wheat is coming to mill freely and is bringing 35c. to 52c. for milling qualities, and 25c. to 35c. for feed. Deliveries of oats have scarcely commenced yet. The price generally paid is 20c. for local use. The export price can scarcely be said to be fixed yet, but it seems likely to be about 20c., which is as good as at this time last year. Scarcely any barley is offering. The quality is generally under the mark and the price 20c. for feed. Potatoes are not in demand and are about 20c. Beef is abundant and of excellent quality at a low price. A good beef steer is worth about \$25. A few dressed hogs are being offered. Live hogs are in good demand. C. Gallagher, and the Edmonton Pork Packing Company, will pack all they can buy, and the Calgary packing company is also in the market for live hogs, so that prices are likely to be good. At present 3c. to 4c. live weight is being offered. Mutton is plentiful at 6c. Chickens are beginning to come in. They are 50c. a pair or 8c. to 12c. a pound. Butter is still 15c. to 20c., some dairy butter bringing the same price as that made at the creamery. There is more butter in farmers' hands than is usual at this season owing to the low price and poor demand during the summer. It is pretty safe to say that only good butter has been held, as it was considered useless to try to sell anything but a first class article. From present indications, although prices may not rise, there is every indication that the stock on hand will find a market before spring, and there may even be a rise in price. Eggs are already moving up to winter prices, having already reached 25c. There is no large stock on hand. Hay is plentiful at 4c. a ton and the quality is generally very good.

#### SUPREME COURT.

Lafferty & Moore vs. D. McLeod. Action to recover balance of banking account. Judgment for plaintiff by consent. Taylor, Q. C., for plaintiff, McNamara for defendant.

Brown vs. McHugh. Settled. Bown for plaintiff.

Taylor vs. Verrean et al. Action on account. Judgment for plaintiff for \$26.50. Taylor, Q. C., for plaintiff, Beck, Q. C., for defendant.

Bell vs. Squarebriggs. Action to recover taxes paid under protest. Judgment for plaintiff by consent of advocates. Bown for plaintiff, Beck, Q. C., for defendant.

Gable vs. Chitz. Action to recover witness fees. Judgment reserved. Woodworth for plaintiff. Taylor, Q. C., for defendant.

Thos. Hewett vs. J. G. Clelland and wife. Action to set aside a mortgage for \$1,200 given by Clelland to his wife as fraudulent. Judgment reserved. Taylor, Q. C., for plaintiff. Short for defendant.

Heiminck vs. The Town of Edmonton. This case was begun on Friday, was continued on Saturday and was concluded to-day. Technically it is an action by P. Heiminck, as the owner, partly under a certificate of ownership and partly under an agreement of purchase from David McDonald, of the land lying between John Cameron's store and Sutter's Dunlop's store, for damages for trespass committed by the town in causing a fence to be pulled down, which was erected by Heiminck, across the opening between the two stores. In reality the substantial question involved in the case is whether there is a public highway running through the opening over River Lot 8 to Donald Rose Grade. The plaintiff's title to the property in question is not disputed except to the extent of the highway claimed. The defendants claim that there is a public highway at that place based (1) upon the fact that a public road or trail is expressly reserved in the patent for River Lot 8, and (2) that the actual trail has been used as a public highway for over 20 years. The plaintiff's defence to this is (1) that this trail is not the one referred to in the patent (2) that the public have accepted Jasper Avenue in lieu of this trail. The case for the defence was not concluded to-day when the court adjourned. C. M. Woodworth for plaintiff, N. D. Beck, Q. C., for defendants.

Of the cases held over from previous courts that of Moran and Graham was ready for trial and stands over till next court for lack of time. Three other cases should have come on but were not ready and had they been ready could not have come on. From twenty-five to thirty new cases that should have been tried at this court, stand over, none of the new work having been received.

Free Press Oct. 29: Governor Mackintosh has rented a furnished house at Ottawa for six months.

#### FUR SALES.

J. Walsh purchased \$60 worth of fur in small lots since last issue.

R. Secord purchased a \$95 lot of fur from Narcisse Beaudry of St. Albert to-day.

The H. B. Co. purchased a \$150 lot of furs from Isidor Laboucan of Lac la Bironne on Saturday.

Fur is reported as plentiful as last year, and as a number of miners have gone trapping, there is likely to be a large trade made at Edmonton. The furs will have destroyed a good deal of fur, such as rabbits, foxes, coyotes, lynx and bear but the more valuable water animals will not be affected, and neither will the marten which is at present the best fur of the northern trade.

Commercial: Gordon & Ironside shipped another lot of about 700 head of Manitoba cattle westward to the range country this week. These are young cattle which they are sending west to feed up for another year. They have about 2000 head of this class of cattle west now, including the cattle shipped this week. They are cattle which they have picked up while buying fat cattle from farmers, and not being fit to ship east, they are sending them west. A lot more of Ontario cattle are reported to be on the way up, to be shipped west to the ranges. Gordon & Ironside are bringing two big steers from Calgary for Kobold & Co., of Winnipeg, for the Christmas market. They weigh about a ton each.
